

# AHFS Consumer Medication Information

## Advancing Evidence-Based Medicine

### The Guide to Patient Drug Information

Give patients easy-to-use written instructions on their drug therapy with one of the most effective patient counseling tools you'll find anywhere. You receive over 1000 generic drug monographs, including the top 200 most prescribed medications, representing approximately 45,000 drug products.

Licensing our NDC database will allow you to quickly and accurately map our monograph data to a point of care vendor system while reserving manpower for other components of your development project.

#### Key Features:

- Available in XML
- 1050 drug information monographs written in lay language for consumers
- Updated monthly
- Conforms to the U.S. Department of Health and Human Services Keystone Guidelines for the provision of "useful" prescription medicine information to consumers
- Includes "How To" monographs for administering different types of medications
- The AHFS Consumer Medication Information database became the first private sector publication developed for educating consumers and patients about their drugs
- Published by the American Society of Health-System Pharmacists—long recognized as an authority on educating patients about drug use and safety, and a founding member of the National Council on Patient Information and Education (NCPIE)
- The AHFS Consumer Medication Information database is a Top Ten Award Winner in the Department of Health and Human Services National Consumer Education Materials Contest

The AHFS Consumer Medication Information database is a Top Ten Award Winner in the Department of Health and Human Services National Consumer Education Materials Contest

*AHFS Drug Information is the foundation of three out of the top four drug databases ranked "superior in scope and completeness" in a recent study of eight subscription drug databases.*
